BATURDAY. A New Representative Man-The Af-

rican.

The Rev. M. D. Conway, of this city, has given expression to a number of novel ideas in a letter he wrote to Rev. JAMES FREE-MAN CLARKE, of Boston, who had recently delivered a discourse in the Music Hall, on Tax-ODORE PARKER and his Theology. Mr. CLARKE's sermon and Mr. Conway's letter appear in a recent number of the Christian Inquirer, of New York, conducted by Rev. A. A. LIVER-

MORE, formerly of this city. Mr. Conway elevates the negro to a new poeltion. He claims that there is "no salvation but by the African, when his cause is the cause of the hard right; when to deal faithfully by him is the difficult duty, then he takes the place of the persecuted peasant of Judea-is the test of truth and self-denial; he wears the thorn and bears the cross with him, and no man cometh to the Father but by him. Justs himself left his representative in his least brother; in every stranger who had a claim on human pity and justice."

Working Men's Hours.

The approaching short days bring dark quite early on the laborers in the shops, essening the working hours. Complaint has been made that boss manufacturers have hired numerous hands during the long days, sceping mechanics hard at work to accumulate stock, and when fall and winter comes, stacking off work, and dismissing reliable hands, whose only hope is in constant emplayment. Some uneasiness has been exhibited in some shops at this alleged evil, and it has been proposed that instead of [changing scale of hours, that nine and three-quarter hours be the regular days work-winter and summer. We do not believe it is practical, as these shops would have to light up. This s worthy of investigation. The PENNY PRESS contends for the mutuality of interest of employer and employees, but bosses should not

A CONSUMPTIVE LIFE

SAVED.—Consumption, primarily and essentially due to a disordered nutrition, can be rationally attacked only by a medicine which resovates the nutritive powers. Such a medicine is the
PERUVIAN SYRUP, whose chief ingredient acts
directly and immediately on the blood and arrests
the diseases safely and surely.

"BALTINDAR, July 15, 1854.—I was suffering with a
savere catarrhal cough, accompanied by nightswests, loss of appetite and great deblitty, which
was daily increasing. In this state I commenced
taking the Peruvian Syrus. In a few days, and before it had used the second bottle, my cough lessened,
nights-weats ceased, appetite was restored, and with
it streugth and vigor beyond what I had enjoyed for
ten years, being able to walk several mises each day
without fatigue, while hitherto I could walk only a
short distance.
